

ALI MOHAMMADI

Backend Engineer

BAKU | alimohammadi.8773@gmail.com | github.com/AliDvlpr | linkedin.com/in/alidvlpr

PROFILE

Backend engineer with 5+ years of experience turning complex product requirements into dependable systems. Focused on API architecture, data design, caching, background processing, performance, and clear operational boundaries.

EXPERIENCE

2025 - NOW

Senior Backend Engineer - QCode

Leading backend architecture across product domains; designing APIs, data paths, integrations, and reliable operating boundaries.

2024 - NOW

Founder - Code Gap

Building a developer community around practical engineering, collaborative projects, mentoring, and educational events.

2023 - NOW

Freelance Web Developer - Independent

Delivering maintainable backend systems for product teams, including investment and commerce platforms.

2019 - 2025

Backend Developer to Team Lead - Alborz Institute

Progressed from implementation into technical leadership, CRM delivery, developer mentoring, and full-stack teaching.

SELECTED PROJECTS

Django Store

Commerce API with explicit service boundaries, database constraints, and a versioned Django REST interface.

Ecostore

Maintainable commerce platform with transactional order workflows and bounded asynchronous processing.

Code Gap

Community and event platform supporting education, collaboration, and repeatable operational workflows.

SKILLS

CORE BACKEND

Python, FastAPI, Django, Django REST Framework, Go

DATA

PostgreSQL, Redis, relational modeling, caching, rate limiting

DELIVERY

Docker, Cloudflare, structured logging, testing, CI workflows

LEADERSHIP

Architecture, mentoring, technical planning, product collaboration
